

BEING ADMITTED TO THE HOSPITAL

Unless a significant chronic medical condition exists that requires in-patient management prior to surgery, virtually all patients are admitted the day of surgery. Your physician's office will let you know the date of your surgery, as well as the time you are to arrive to be admitted. We urge you to leave your valuables at home. If you must bring valuables, you are responsible for them unless they are placed in the hospital safe. Please arrange this with the Admitting Department.
